# TESTIMONIALS

## Shamrock Foods Company

"The City of Phoenix Economic Development team has been an incredible partner to Shamrock, particularly as we've continued to expand our facilities in Arizona. Their ability to bring all of the experts together to develop future business growth is unmatched. We appreciate their support and look forward to many more years of working together."

## M3 Commercial Moving & Logistics

"At M3 Commercial Moving & Logistics, we're proud to be from and integrated in Phoenix. Before launching our business in 2019, connecting with the City of Phoenix Economic Development Team was only logical. Learning of their abundant resources and commitment to assisting a local company's growth was a significant factor in launching our operation. They treated us like we treat our clients; as partners. Most importantly, their personal touch and commitment to our success made us feel comfortable relocating critical members of our team to the area. We wholeheartedly endorse contacting the City of Phoenix for any business contemplating expansion. The future is bright, and our company has flourished and exceeded expectations. We look forward to continued growth as integral members of the business community."

## Pet2Vets

"The assistance I received was a game-changer! I needed help putting my pet-taxi business together. I did research and found PHXbizConnect through the City of Phoenix. The city was incredibly helpful because I was able to work 1:1 with experts in social media, marketing, and financing. The assistance was free-of-charge and was amazing."
